DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Solie et al as discussed in the previous office action.
2. Applicant's arguments filed 1/27/2005 have been fully considered but they are not persuasive.

Regarding applicants arguments, the examiner is interpreting the heating means that form the creases in Solie et al to read on the limitation of "forming beforehand ... reduced in bending resistance". Solie et al show this limitation as well in the embodiment in fig 6. The reduced resistance is formed with element 247 and the membrane is reduced in angle to form a fold with a predetermined angle value which subsequently gets pressed in element 250. This reads on the claimed subject matter.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
